NEILPRYDE

Craftsmanship, Technology & Efficiency

Neil Pryde sails are a combination of craftsmanship, technology, and efficient manufacturing methods. Our extensive experience, traditional handwork, attention to detail, high-tech tools such as computer-aided design and manufacturing, laser cutters, and special purpose sewing platforms unite to produce the finest sails.

Complete Sail and Canvas Repairs

Sail Repairs (no job too small), Sail Consultations and Sales

All our sail repairs are guaranteed to be right. Repairs that are not correctly done lead to other problems or even structural failure. We give you an honest sail evaluation and a professional repair job. Our expert repairs are as visually appealing as possible while keeping the structural integrity intact, and the cost reasonable.

If you have any questions about sail trim, material, shape or how your sails affect your boats performance, just give us a call. We may be able to speed you up by looking at frequent trouble spots and repairing them. Sometimes all it takes is some tell-tales or just easing a luffrope a bit. Simple things can make a drastic difference. We would be glad to talk to you and take a look. If things are beyond repair, we can head you in the right direction on a new sail that will suit your needs, your boat and your wallet. Our services include:

- Dutchman Sail Handling Systems Sales and Installation
- Specialty modifications - mainsail reefs, add full battens, headsail foam luff pads, headsail recuts, UV Furling covers
- Add or change sail numbers/spreader patches
- Sales and installation of Tides STRONG TRACK sail slide systems

Our affiliate YACHT SERVICE LTD, (A full service Boatyard at our location) sells, installs and services almost all brands of Headsail Roller Furling Systems. Together we can offer complete furling retrofit packages under one roof. We also offer on site and mobile rigging service that can provide standing rigging replacement, custom halyards and sheets, furler replacements and repairs, blocks, sheets, shackles, poles and almost anything you can think of or want. Give us a call.

winches, spinnaker
anything you can

making SAILING fun for all

Our outstanding Marine Canvas division specializes in custom sailboat canvas design, installation and repair.

We make all custom designs in house from the framework to the final installation on your boat. Our extensive sailing experience helps us design a product that meets the needs of the owner, and works in the confines of your boats design.

Call today to set up a free consultation and discuss design, color, style and fabric.

A new Sailors Choice dodger or bimini could make your next sailing cruise more comfortable and enjoyable for the whole family and even extend your sailing season.

We use only the best materials to ensure maximum life-span and ease of use.

Here is a list of a few items our Full Service Canvas Department specializes in

- Custom Dodgers
- Custom Biminis
- Filler Panels
- Enclosures
- Sailcovers
- Wheelcovers
- Tent/Cockpit Covers
- Exterior Cockpit Cushions
- Custom bags/Sheet bags

Canvas Repairs and Modifications

Our repair shop can revitalize most dodgers, sailcovers and biminis. We can easily replace windows, zippers, binding and restitch them to keep you going.

Our repairs are fully guaranteed to hold up and be cosmetically pleasing. Items you think may be too far gone may be able to be fixed by us. If not, we offer some of the best new canvas products on Long Island.

Stop by with your canvas goods for a free evaluation.

making SAILING comfortable

SAILOR'S CHOICE WINTER SERVICE PROGRAM

Simply the Best....

The days are getting shorter and unfortunately our sailing season is rapidly approaching its end. It is time to think about putting our boats away properly and winterize our investments. Included in this should be your sails and canvas work. These often overlooked details end up to haunt us in the spring and summer when we want to go sailing. Take advantage of the winter months and get a head start on next season with the benefits of proper sail care. All sails, whether Dacron, Nylon, Mylar, Kevlar or Polyester; take abuse and wear. Any soil, stains, or salt left on your sails can cause permanent damage, mildew growth, and/or odors if not cleaned and stored properly.

At Sailor's Choice, we have washed well over 5,000 sails, and can honestly say that our washing process makes a difference. Our sails look, feel and smell clean and leave the loft in a "reconditioned" state. Best of all, you have the satisfaction that everything on your sail has been checked, repaired and evaluated by a sailmaker who cares. All work is **guaranteed** to be right and at a reasonable cost. Prevention is the best protection for your sails. Our Sail loft and sail washing facility can safely handle sails for boats up to 45 feet. All sails are washed by hand, on premises by a sailmaker who can quickly spot problems and prescribe the best method to fix and eliminate them for worry free sailing. The entire sail is checked twice during the cleaning process, including seams, patches, corners, rings, cleats, batten pockets....*everything !!!* Minor repairs are included in the wash charge. We can stop small problems before they become serious. Cleaning sails annually protects your investment and will make your sailing season next year more enjoyable.

Our Winter Sail Service includes:

Sail cleaning

Sail inspection

Analysis of shape and condition

New telltales if needed

And much, much more ...
