

## SAILOR'S CHOICE WINTER SERVICE PROGRAM

When the days start getting shorter and your sailing season is approaching its end, it is time to think about putting your boats away properly and winterize your investments. Included in this should be your sails and canvas work. These often overlooked details end up haunting us in the spring and summer when we want to go sailing. Take advantage of the winter months and get a head start on next season with the benefits of proper sail care. All sails, whether Dacron, Nylon, Mylar, Kevlar or Polyester; take abuse and wear. Any soil, stains, or salt left on your sails can cause permanent damage, mildew growth, and/or odors if not cleaned and stored properly.

At Sailor's Choice, we have washed over 5,000 sails, and can honestly say that our washing process makes a difference. Our sails look, feel and smell clean and leave the loft in a reconditioned state. Best of all, you have the satisfaction that everything has been checked, repaired and evaluated by a sailmaker who cares. All work is guaranteed to be right the first time and at a reasonable cost. Prevention is the best protection for your sails.

Our sail washing facility can safely handle sails for boats up to 45 feet. All sails are washed by hand, on premises by a sailmaker who can quickly spot problems and prescribe the best method to fix and eliminate them. The entire sail is checked twice during the cleaning process, including seams, patches, corners, rings, cleats, batten pockets....everything !!! Minor repairs are included in the wash charge. We can stop small problems before they become serious. Cleaning sails annually protects your investment and will make your sailing season next year more enjoyable!

Our Winter Sail Service Includes:

- Sail cleaning
- Sail inspection
- Analysis of shape and condition
- New telltales if needed
- And more ...
